PRODUCT DATA SHEET

Olympic 090-202-215

Olympic 76mm Bi-Metal Holesaw

Manufacturer: Olympic Fixings

GTIN: 5055068634143

Family: Power Tool Accessories

Range: Holesaws

DESCRIPTION

Olympic Bi-Metal Holesaws are made with M42 HSS cutting edge consisting of 8% cobalt. The body is manufactured from premium quality steel with a 4/6 TPI tooth pattern with a 38mm cutting depth. They are supplied individually in hanging blister packs

- Suitable for use with sheet metal, cast iron, aluminium, wood, plywood, plastics and pipe
- Ensure the recommended speed is used for different diameters of holesaw
- Use the correct cutting fluid when making holes in metal, other than cast iron which should be cut dry
- Use correct level of pressure when hole cutting. Too much or too little can damage cutting edges
- Pilot drills should be correctly assembled to ensure they do not extend beyond cutting teeth further than the material thickness being cut

TECHNICAL SPECIFICATION

ETIM Class: Hole saw (EC000415)

Primary Features

Cutting depth (mm)	38	Diameter (mm)	76
