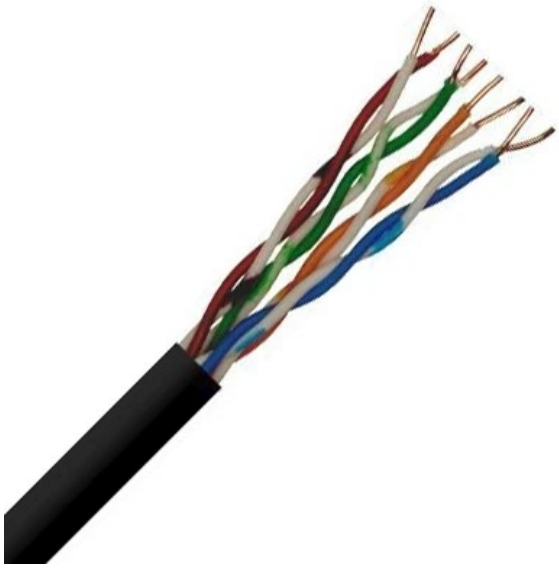
Alt. Part Number: SFX/C5-UTP-PE-BLK-100

Family: Network Cable

Range: Solid Copper UTP - Premium Cat5E & Cat6



DESCRIPTION

Data cable is designed for use in computer systems, allowing data transmission between multiple machines over a single network. It can also be used for Power Over Ethernet (POE) applications. We offer a wide range of data cabling that perform at different transmission speeds to suit a variety of applications.

- Capable of 100mbps transfer speed or 100mhz frequency at a maximum distance of 90 meters
- Unscreened cables are thinner, more flexible and less expensive so are suited to building LANS and telecoms applications
- Polyethylene plastic is excellent for use externally above ground or below ground inside ducting
- UV resistant
- Solid core is the most cost effective and commonly used type of cat5e cable
