

PRODUCT DATA SHEET

UNICRIMP QC9

Qcrimp Black Cable Cleats 22.8mm

Manufacturer: Scolmore Group

GTIN: 5055287044532

Family: Cable Cleats

Range: Cable Cleats

DESCRIPTION

Cable Cleats are designed to ensure the retention and support of cables and conductors, reducing the load that the cable may be exposed to under its own weight. By ensuring the cables are fixed, retained and supported correctly this also protects all of the cable terminations by reducing the mechanical load exerted on them. Cable Cleats are also designed and tested so that in the event of short circuit fault conditions, they will contain the cables without causing damage; enabling the circuit to be restored once the fault has been rectified. Manufactured in polypropylene, a plastic which has high electrical resistance, excellent tensile strength and stability at high and low temperatures. An ideal clamp where there is a highly corrosive atmosphere. Manufactured in black to minimise possibility of U.V damage.

- Manufactured in Polypropylene, a plastic which has high electrical resistance
- Excellent tensile strength and stability at high and low temperatures
- Suitable for highly corrosive atmospheres
- UV Stabilised Material

TECHNICAL SPECIFICATION

ETIM Class: Cable cleat (EC004588)

Primary Features

Material	Plastic	Width (mm)	26.7
Number of fixing holes	1		

Additional Features

Ambient temperature during operating (°C)	-35 - 105	Mounting	Direct
Approved according to IEC 61914	No	Mounting holes	M6
Corrosion resistant	No	Thickness (mm)	18.5
Flame resistant	No		

FURTHER DETAILS

Product Status (at download): Active

Date Updated: 19-04-2024

Trade Tariff Commodity Code: Not supplied

Country of Origin: Not supplied
