

PRODUCT DATA SHEET

Hispec HSPC1

Hispec Niagara Internal Photocell

Manufacturer: Hispec Electrical Products Ltd

GTIN: 5060144132352

Family: Lighting

Range: Lighting Controls

DESCRIPTION

Optimise your lighting efficiency with the Niagara Internal Photocell. This smart lighting solution automatically adjusts illumination based on ambient light levels, making it ideal for energy-saving applications in residential and commercial settings.

- **Automatic Light Control:** The photocell senses ambient light levels and switches lighting on or off accordingly, providing optimal illumination only when necessary.
- **Energy Efficiency:** Helps reduce electricity usage by ensuring lights are only on when needed, contributing to lower energy bills and a smaller carbon footprint.
- **Versatile Application:** Suitable for a wide range of environments, including homes, offices, industrial settings, and public spaces, where efficient lighting control is required.
- **Easy Integration:** Can be easily installed in existing lighting systems, providing a seamless upgrade to automatic light control without the need for complex rewiring.
- **Reliable Performance:** Built with high-quality components, ensuring long-lasting and consistent operation in various conditions.
- **Compact Design:** The internal photocell is discreet and does not interfere with the aesthetic of the lighting fixture or installation area.
- **Customisable Settings:** Offers adjustable sensitivity to suit different lighting requirements and environments, allowing for tailored light management.
- **Safety and Security:** Helps maintain well-lit environments, enhancing safety by automatically turning on lights during low light conditions or at night.

TECHNICAL SPECIFICATION

ETIM Class: Electrical accessories for luminaires (EC002556)

Primary Features

Type of accessory/spare part Twilight sensor

Additional Features

Accessory	Yes	Spare part	No
Colour	Black
